

Discover the Empowerment Dynamic: Create Inspired Outcomes in Your Work & Life with The Power of TED*™

Life can be challenging. Events happen that feel beyond our control, and demands for our time stretch us past our limits. How can we effectively deal with life's challenges AND maintain productivity, a positive attitude and motivation?

David Emerald, author of **The Power of TED* (*The Empowerment Dynamic)**, offers a unique perspective and approach to making the shift **from** focusing on and reacting to problems and **toward** creating a vision and actions that move us toward what we want to create. TED* provides a set of a remarkable framework and processes that can transform your workplace and your life.

Introducing *The Power of TED**

This 1-day seminar provides an in-depth overview of:

- The Dreaded Drama Triangle (DDT) and how the roles and mindsets of Victim, Persecutor and Rescuer keep us stuck in non-productive patterns.
- How The Empowerment Dynamic* (*TED) creates more powerful roles as alternatives to those found in the DDT.
- Key differences between a problem-focused & reactive orientation versus one that is outcome-centered and passion driven.
- How to harness the Dynamic Tension framework as a simple way to create the outcomes you want.

You will leave with the ability to:

- Identify your own patterns and the roles you play.
- Recognize roles that others play.
- Begin to make the shift between the orientations

and make small steps to manifest powerful results in your work and life.

Cost: \$195 (includes lunch)
