Introducing The Power of TED*

This 1-day seminar provides an in-depth overview of:

- The Dreaded Drama Triangle (DDT) and how the roles and mindsets of Victim, Persecutor and Rescuer keep us stuck in non-productive patterns.
- How The Empowerment Dynamic* (*TED) creates more powerful roles as alternatives to those found in the DDT.
- Key differences between a problem-focused & reactive orientation versus one that is outcome-centered and passion driven.
- How to harness the Dynamic Tension framework as a simple way to create the outcomes you want.

You will leave with the ability to:

- Identify your own patterns and the roles you play.
- Recognize roles that others play.
- Begin to make the shift between the orientations and make small steps to manifest powerful results in your work and life.
