

Join us for A Deeper Dive into The Power of TED*

You've read the book (*The Power of TED**). You've opened to the power in transforming the Dreaded Drama Triangle (DDT) into TED* (*The Empowerment Dynamic). You've experimented in your own life with making "shift happen," transforming your relationship roles from Victim to Creator; from Persecutor to Challenger; and from Rescuer to Coach. You've adopted a Creator Orientation toward your life and harnessed Dynamic Tension in envisioning and creating outcomes.

Now you are ready to take a deeper dive into TED* in order to increase your capacity as a Creator. While the concepts contained in TED* are simple, they are anything but easy to apply in a sustainable way.

If you are committed to enhancing the resourcefulness and quality of your relationships – at work, at home, in your communities – then this highly experiential workshop is for you.

"Experiencing The Power of TED (EPOT) was the best investment I've ever made in myself... it was a life altering experience. Reading The Power of TED* gave me an awareness of how I was living in the Victim orientation. EPOT brought greater depth to that awareness and the interactive group exercises gave me the tools and support I needed to shift to the Creator orientation... I found a hidden door in the walls around my life and now that I have stepped through that door I will never be the same."*
